Fiscal Year 2015 Statistical Highlights from the OFN Membership

MEMBERSHIP OVERVIEW

Opportunity Finance Network (OFN) creates growth that benefits communities, investors, individuals, and the economy. OFN Members are community development financial institutions (CDFIs) that deliver responsible lending to help low-income, low-wealth, and historically disinvested individuals and communities join the economic mainstream. OFN Members invest in opportunities that create quality affordable housing, vital community services, and entrepreneurial capital in urban, rural, and Native communities. This report provides information on 221 CDFIs in the OFN membership. The vast majority (195) of these institutions are community development loan funds with the balance being 23 community development credit unions, two community development banks, and a single community development venture capital fund.
